

Summer Camp 2025

Note: 4K-K are Half-Day Camps

Grades 1-6 Are Full Day Camps

June 2-6

| Grade | Title | Description |
|---------|----------------------------|--|
| 4K-K | Itty Bitty Bots | Today's technology may be growing more complex, but we all have to start somewhere. In this camp, we'll introduce the basics of bots and tech for the tots! |
| 1st-2nd | Ode to Ooze | Get ready to explore the gross, the grime, and the gooey as we unlock the secrets of the goo-niverse. |
| 3rd-4th | Lost Worlds | Travel back in time and uncover the secrets of past worlds by exploring environments and civilizations that shaped Earth's history. |
| 5th-7th | Survival Strategies | Explore how plants, animals, and humans work together to survive as we learn the wild connections of nature! From farming and meeting live animals to dissecting fascinating specimens and contributing to ongoing research, each day is a new quest to uncover the secrets of a thriving ecosystem. |

June 9-13

| Grade | Title | Description |
|---------|-------------------------------|---|
| 4K-K | The ABC's of Art | From Acrylic to Zippers, we're getting artsy and tinkering our way through the alphabet! |
| 1st-2nd | Splash-tacular Science | Get ready to make waves as we dive into the science and fun of our planet's most vital resource. |
| 3rd-4th | Game Night | Roll up to a camp week filled with cards, game pieces and dice. Pass Go, learn the science behind the games, collect \$200. |
| 5th-7th | Mind Storm | Trick your senses, go head-to-head with AI, and match wits with our most mind-melting camp ever. |

| | | |
|---------|--------------------------|---|
| 6th-8th | Minecraft Mastery | Teamwork. Creativity. Strategy. These are the skills of a seasoned STEAM professional. We will learn to hone those skills by facing many trials and challenges in the world of Minecraft. |
|---------|--------------------------|---|

June 16-20

| Grade | Title | Description |
|---------|---------------------------------|---|
| 4K-K | Digging the Past | Tiny adventurers will embark on a journey through time, uncovering fossils and ancient artifacts to learn how we piece together the stories of our planet's past. |
| 1st-2nd | Bot Builders | From circuits to sensors; from magnets to motors; this week, we'll learn what makes a robot tick and how to command them to achieve great tasks- or at least beat the other bots! |
| 3rd-4th | Knights of the Ecosystem | Hear ye hear ye, the 5 kingdoms have joined forces to begin an expedition into the world of flora and fauna. Accept the quest and join the adventure as we explore animals, plants, and more through hands-on dissections, farm challenges, and thrilling animal encounters while contributing to citizen science projects. |
| 5th-7th | Eww-niversity | Don't just read about science. Feel it, smell it, and maybe even taste it... if you dare, in this gag-worthy camp. |

June 23-27

| Grade | Title | Description |
|---------|---------------------------------|--|
| 4K-K | Splish! Splash! Science! | Make a splash this summer and experience a week of water-filled fun, where adventure and learning flow together. |
| 1st-2nd | Headspace Invaders | Discover the surprising secrets beneath your skull in this camp that's guaranteed to blow your mind. |

| | | |
|---------|-------------------------------------|--|
| 3rd-4th | Minecraft: Ender Engineering | With the tools of STEAM and the virtual world of Minecraft to use them in, campers will find out what it truly means to engineer the world we live in. |
| 5th-7th | Gaming Studio | The game is afoot, as campers explore strategy, probability, observation and more, while rolling out a vast number of board games and card games – and designing their own games |

June 30-July 4 - No Camps

July 7-11

| Grade | Title | Description |
|---------|-----------------------------|---|
| 4K-K | Grime Time | The yuck stops here as we dig into disgusting science and make messy concoctions! |
| 1st-2nd | Ecosystem Explorers | Join us for a week of exploration as we uncover the amazing world of plants and animals. |
| 3rd-4th | Rev Up Robots | Get those motors moving! In this camp, we'll break out all the gadgets and gizmos to explore the ins and outs of the awesome robots that call McWane home |
| 5th-7th | Fiber Arts Unraveled | Find the S.T.E.A.M. behind the seams in the colorful world of fiber arts. Whether you're crafting a masterpiece or unraveling the secrets of textiles, this camp blends creativity and STEM for a one-of-a-kind experience. |

July 14-18

| Grade | Title | Description |
|---------|---------------------------|--|
| 4K-K | Science Playground | Create wacky new games, build amazing toys, and jump into exciting world of sports as we dive into the science of play! |
| 1st-2nd | History Hunters | Young explorers will learn about fossils, artifacts, and tools of archaeologists and paleontologists to uncover Earth's ancient secrets. |

| | | |
|---------|--------------------------------|--|
| 3rd-4th | Brain Raiders | Get ready to flip your world upside down – literally – and so much more in this brain-bending bonanza! |
| 5th-7th | Minecraft: Redstone Lab | The virtual world of Minecraft makes the perfect sandbox to explore the STEAM ideas of our wondrous reality! |

July 21-25

| Grade | Title | Description |
|---------|------------------------|--|
| 4K-K | Nature's Nook | Dive into the wonders of nature with hands-on activities, games, and crafts that showcase the beauty of flora and fauna! |
| 1st-2nd | Ah-Mazing Art | Earth without art is just “eh”... Travel around the world and investigate how ah-mazing art can be! |
| 3rd-4th | Fungus Among Us | Dive into the slimy, sticky, and totally icky world of your body and more in this gross-out camp. |
| 5th-7th | Robo Revolution | Nothing to fear in this robo revolution! Our fleet of bots will offer incredible learning opportunities for our young engineers and will definitely not gain sentience and take over... maybe. |

July 28-August 1

| Grade | Title | Description |
|---------|-------------------------------------|--|
| 4K-K | No Brain No Gain | Get in the headspace for hilarity as we explore the wacky world of the mind and make sense of senses. |
| 1st-2nd | McWane MVP | From sports on the playground to indoor boardgames on a rainy day, it's time to play out the summer with the science of fun. |
| 3rd-4th | Minecraft: Ender Engineering | With the tools of STEAM and the virtual world of Minecraft to use them in, campers will find out what it truly means to engineer the world we live in. |

5th-7th

Time Travelers

Dig into the study of the deep past and what it can teach us about the future. Through real-world skills of paleontology and archaeology, we will contribute to ongoing research in the field through McWane's fossil collections.
